

## BANGALORE

Bangalore is a large metropolis in Southern India with about 8 million and 400,000 people. In the poorest part of the suburbs of Bangalore, there is a “Don Orione centre”. The centre is a safe place for the 100 children who attend it and where they can have school education and a full nutrition. We support the centre monthly with € 500 to ensure the school canteen.

## PONDICHERRY

The "Shanti" organization operates in a very poor area of the city of Pondicherry, in Southern India. The association was created with the aim of supporting women and children in serious economic and social difficulties who live in this area.

In particular, the association follow the 150 children in their school career. They provide for their health, they help with their learning and entering the professional world while assisting families to purchase school material, clothes and the maintenance of their homes.

In 2016, after receiving a request for collaboration, we helped the association to carry out the construction of a new headquarter, larger and suitable for hosting all children and staff.
